PERSONAL PROFILE

Self-study JavaScript, React, Redux, React Native, Node.js, Express and MongoDB, Mongoose, HTML, CSS and SCSS/SASS. I have experience in backend and frontend development, interface design, database creation. Always trying to master new technologies, while not forgetting to improve my knowledge of the previous ones. I follow trends in interface design and I like to work in a team more than alone.

EDUCATIONAL HISTORY

Belarusian State University of Informatics and Radioelectronics, gradueted in 2007-2012

Computer Engineering - Electronics Engineer
